

Sattvic Food 3/4

Since I started this practice of changing my choices to more pure options, I have come to the realisation that no matter where you are, who you are, simplicity is always the best. Though I faltered 3-4 times during this, almost a month long period, I have gained a feeling of butterflies after trying sattvic food.

I have also tried this in other things I used to do, for instance, the bad music I used to blast to my ears, I have replaced with the Joy of listening to religious scriptures and the "Aumrahelo shiva" hymn. I have also started dressing a bit differently, choosing sweaters and t-shirts over shorts & jeans, something which has brought great relaxation, both to my body and mind.

Instead of doom scrolling media, I have started to focus on gaining knowledge.

As I look back and see what I have done, I start to remember the quote - "I all begins with a tiny spark of hope".

Thanking you for this assignment.

Sincerely,
Nizamul Rahman
