Sattvic Food 1/4

I am a big fan of chocolate and hardly any day passes without me having 2 or 3. I have decided to avoid it for the next 1 month in lieu of Ramzan and instead have milk and jaggery. Once a day at night time. I hope this will help to take some burden off my soul and add to my health.

Regards,
Rahman

Sattvic Food 2/4

For the first 4 days I have been drawn to those sticky wafers, but I have been successful in fighting it. Last night 19/2 I had bananas with milk as I couldn't find jaggery for me at midnight. Nevertheless I was nutritious and tasty at the same time. 2 Days back I by my negligence had a candy my friend gave me after dinner, will take better care of it in later encounters.

Regards,
Rahman
